Foreword

We are pleased to present the 2010 edition of the *Indianapolis Medical Society Pictorial Roster* and hope that it will be of continual use to the medical community as the earlier editions have been.

The Board of Directors has directed that the first line of the specialty listing in The Roster reflect board certification as published by the American Board of Medical Specialties, and that the second line list the self-designated practice specialty codes as utilized by the American Medical Association. The exception being if a physician has changed his/her specialty. At all times we strive to reflect our members' current practice information.

The fact that a physician chooses to designate a given specialty on our records does not necessarily mean that the physician has been trained or has special competence to practice the Self-Designated Practice Specialty.

An attempt is made each year to improve the convenience of the *Pictorial Roster* to its user. To continue improvements, the Indianapolis Medical Society encourages comments and suggestions for future editions.

Every effort has been made to ensure accuracy and timeliness, but errors may have occurred. Members are asked to keep the Indianapolis Medical Society personnel informed of changes or corrections, which should be made for subsequent editions.

We are gratified that *The Roster* is a worthwhile advertising medium. We encourage you to patronize these financial supporters of your professional organization's publication.

Advertising in *The Pictorial Roster* does not imply approval or endorsement by the Indianapolis Medical Society.

The IMS Pictorial Roster is for the personal use of IMS members. Using this Roster for solicitations, commercial activities or general mailings is prohibited.
